DETAILED ACTION

Claim Objections

1. Claims 4-17 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only and/or cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 4-17 have not been further treated on the merits.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Shieh (US 6,379,021 B1).

4. Re claims 1-3: Shieh discloses a device for radiating light having a metal frame with a predetermined decorative shape (30 in Fig. 1), a substantially tube-like casing (10), comprising a relatively large number of LED (11) arranged in the interior of the casing, conducting means (the conductor connecting bulb 11) for connecting the light sources in electrically conducting manner, wherein the conducting means are arranged in the interior of the casing, wherein the casing is arranged on the frame in accordance with a predetermined shape (See Fig. 3).

Art Unit: 2875
